

A+ Peripherals and Power Supply

Daily task 1

1. Create a table listing 3 types of printers, 2 types of scanners, and 2 types of webcams, and for each, write one real-life use case (for example: 'Inkjet printer – printing college assignments').

= there are 3 type of printer :-

i. Inkjet printer, it is used for printing colour photo colour document.

ii. Laser printer, it is used for printing large volume document quick.

iii. Dot Matrix, printing invoice, bills and receipts.

- there are 2 types of scanner :-

i. Flatbed Scanner, Scanning certificates, photographs.

ii. Handheld Scanner, Scanning barcodes in warehouse and retail store.

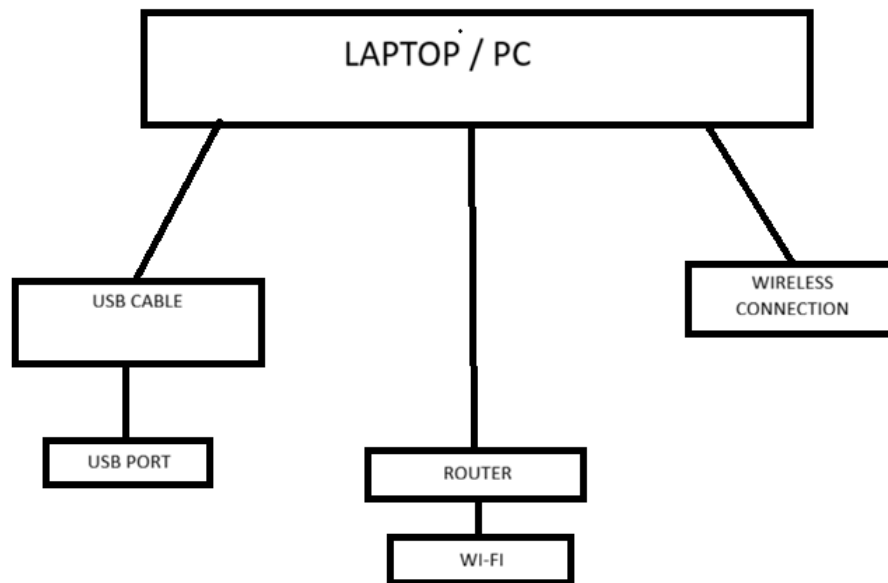

- there are 2 types of webcam :-

i. Built in Webcam, attending online classes.

ii. external webcam, streaming, video conferencing etc.

2. Draw a labeled diagram showing how a typical home printer connects to a laptop or PC, including the connection interface used (USB, Wi-Fi, or Bluetooth).

=

3. List three different connection interfaces (such as USB, Wi-Fi, Bluetooth) used by peripherals like printers, scanners, and webcams, and for each, name one advantage and one disadvantage.
Hint: Think about speed, convenience, and compatibility.

= USB

advantage

- Fast and reliable data transfer with a stable connection.

disadvantage

- Requires a cable limiting device mobility and distance.

* Wi-Fi

- Allows wireless connection from multiple devices over a network.
- Can be affected by network congestion or weak signal strength.

* BLUETOOTH

- Convenient wireless connection without needing a router.
- shorter range and generally slower data transfer than USB or Wi-Fi.

4. Pick any one device you use at home or college (printer, scanner, or webcam). Write step-by-step instructions for how you would connect it to your computer, including what cable or wireless method you would use and any setup steps required.

= Device chosen: Printer(USB Printer)

-Steps

- i. Place the printer near the computer.
- ii. Connect the power cable.
- iii. Connect the USB cable.
- iv. Wait for device detection.
- v. Install printer drivers.
- vi. Add the printer.
- vii. Load paper and ink cartridge.
- viii. Print a test page.
